SNAPDRAGONS—Winter-flowering

Proven Sorts for the Florist Grower

IMPORTANT! All Snapdragon Seed which we supply for under-glass production has been produced in greenhouse and obtains full strength. We cannot recommend for greenhouse planting seed that has been harvested from out-door cultures, as we have found such not infrequently to be of doubtful quality insofar as cut-flower production is concerned.

Flower Seeds

New Begonia Semperflorens Marginata "Elegant"

BEGONIAS, Fibrous Rooted

- Albert Martin.** Bright carmine, extra large flowered.
Tr. Pkt.....50c 1/32 oz.....\$1.00
- Coppery Gold (New).** Double flowered. Many flowers are like tiny roses which are very effective when fully opened. Color: old gold merging into copper red or coppery salmon, usually tinged with carmine. The seedlings produce about 80% doubles. Blooms from July until frost. Tr. Pkt.....\$1.00
- Carmen.** Bright pink flowers with richly contrasting bronze foliage.
Tr. Pkt.....\$1.00 1/64 oz.....\$1.75
- Christmas Cheer.** Extra large-flowered crimson-scarlet.
Tr. Pkt.....\$1.00 1/64 oz.....\$1.50
- Christmas Pink.** This variety is of same habit as Christmas Cheer and equally as good.
Tr. Pkt.....\$1.00 1/64 oz.....\$2.50
- Darling (New).** Of compact growth, 8 to 10 inches, with large light rose colored flowers about the shade of Glory of Erfurt. We have had this in full flower for Christmas. Tr. Pkt....\$1.25
- Elegant (New).** White attractively edged crimson, clear green foliage that contrasts well with the flowers. Tr. Pkt.....\$1.00
- Enchantress.** A new Begonia of great value to the florist. (Better than Prima Donna.) Of compact growing habit; pale green foliage; flowers large and of bright pink color. Unusually free flowering. Tr. Pkt.....75c
- Fire Sea or Blaze of Fire.** Extra dwarf compact habit. Large fiery red flowers with green foliage. Good.
Tr. Pkt.....\$1.00 1/32 oz.....\$2.50
- Gustav Knaake.** Glowing salmon-pink, resembles Melior.
Tr. Pkt.....\$1.00 1/32 oz.....\$1.75
- Indian Maid.** Has the same deep bronze foliage of Carmen with bright deep scarlet flowers producing a highly attractive combination.
Tr. Pkt.....\$1.25
- Lightning.** Extra large flowers measuring 2 inches across and of deep carmine-scarlet shade—an extra deep bright shade in Begonia.
Tr. Pkt.....\$1.00
- Luminosa.** Deep scarlet with reddish brown foliage.
Tr. Pkt.....75c 1/32 oz.....\$1.75
- Luminosa Compacta.** From the middle of July onwards the small dark brown foliage is hidden by the mass of medium sized bright scarlet blossoms. This new variety, coming true from seed, is very useful for beds, borders, edgings and also as pot plants.
Tr. Pkt.....50c

CALCEOLARIAS

- Hybrida Multiflora Nana.** Dwarf compact growth. Medium size brightly colored flowers in choicest mixture. A great favorite with the trade.
1/2 Tr. Pkt.....50c Tr. Pkt.....\$1.00 1/64 oz.....\$4.50
- Hybrida Grandiflora Mixed.** A special mixture of varied colorings. Grows about 18 in. high. Large flowered, vigorous growth.

- Albert Kent Hybrids.** A much liked mixture of varied colors.
Tr. Pkt.....\$1.00 1/64 oz.....\$3.25
- Kelway's Perfect Model.** A fancy large flowered mixture.
Tr. Pkt.....\$1.00 1/64 oz.....\$2.25
- Hybrida Grandiflora Tigrina.** Large flowered "Tigred" or spotted mixture.
Tr. Pkt.....\$1.00 1/64 oz.....\$2.50
- Rugosa Hybrids Mixed.** Comparatively small flowers. Provide pot-plants and desirable for cutting. Tr. Pkt.....\$1.00

Calceolarias

(Continued)

New Calceolaria, Indian Prince. This is a new color selection from the popular Multiflora Nana strain, retaining the fine dwarf, free-flowering habit. The color is a rich dark scarlet with an orange suffusion, a color that will contrast richly with the new Golden Tiger of the same class.
Tr. Pkt.....\$1.00

Golden Tiger. Bright, golden yellow flowers with dark brownish red dots, masses of small substantial blooms spread in plenty above the foliage. Multiflora Nana type. A most desirable new kind.
Tr. Pkt.....\$1.00

Cloth of Gold. Medium large flowered, rich pure golden yellow.
Tr. Pkt.....\$1.00 1/64 oz.....\$3.25

Albert Kent. Immense trusses of golden yellow flowers with maroon blotches. Tr. Pkt.....\$1.00 1/64 oz.....\$2.50

Feltham Scarlet

This is one of the most striking colors among the splendid hybrid Calceolaria which we introduced last year under the name Feltham Glory, and we have decided to issue it separately. The plants are fairly dwarf and compact in habit and the flowers of a rich dark scarlet, which will make a glorious show in the greenhouse and a bright display in a somewhat sheltered position in the open ground. Tr. Pkt.....50c

The Ball Calendulas

New Crop Seed Supplied to Us by Geo. J. Ball, Inc., West Chicago, Ill., in his Original Sealed Packages

Ball's Masterpiece. Clear rich orange with an attractively contrasting dark brown center. This is our most popular standard cutflower variety.

Ball's Long Orange. The standard long-stemmed orange with light center. Preferred by many growers for its long stem.

Ball's Sensation. Long-stemmed orange with light center. This is a selection from Long Orange that seems to do particularly well for some growers.

Ball's Lemon Queen. Clear medium deep yellow with a dark brown center that contrasts most effectively. Generally preferred yellow.

Ball's Gold. Deep golden yellow, long-stemmed and large flower with light center. Stem, size, and color in this are outstanding.

Ball's Supreme. Light shade of orange with a richly contrasting brown center, not extra long-stemmed but freer flowering than any of the above.

Ball's Apricot. Rich apricot or straw color with a finely contrasting brown center. Same habit as Ball's Supreme, from which it is a selection. Inclined to occasionally produce orange petals with the apricot. Some should be grown for variety.

Prices on each of the above Ball Calendula:
Tr. Pkt...40c 1/4 oz...60c Oz...\$2.00 2 oz...\$3.50 4 oz...\$6.50

Note: Unit price on weight lots will apply in combination with two or more of above varieties. For instance, on 1/4 oz. each of four varieties, instead of 60c each, or \$2.40 for the four, the ounce price of \$2.00 will be accepted.

Ball Calendula Mixture. A mixture of all the above, with fully half orange colors. Intended for the retail grower with limited planting but requires some of all colors.

CANDYTUFT

If you have grown annual candytuft before and found it a poor seller, it is more likely that you had too much of the white variety. Try in its place a few of the colored varieties, such as Pink, Rose, Carmine, Lavender and Crimson and be convinced that this annual is of much use in the florist's establishment in the spring. It will take about five months to bring them into flower indoors. Plans may be made accordingly, taking into consideration the period cut flowers will be of most use to the individual florist. A good time for one planting is soon after the winter holidays as space becomes available. Some growers sow the seed singly, planting out later at the distance of a foot apart.

Blue Ribbon Cinerarias (Cremers Strain)

Excerpt from Florists' Exchange

Issue of April 4, 1936

"These exceptionally fine Cinerarias, grown by our Fritz Bahr of Highland Park, Ill. gained first prize at the recent Chicago flower show at Navy Pier. In 8 in. pots, several of the plants carried flower heads fully 30 in. across. The 25 specimens were all of the noted F. E. Cremer strain. Plants like these fully support Mr. Bahr's contention that Cinerarias are unsurpassed for keeping the showhouse attractive." (See next page for details.)

CYCLAMEN

True Ferd. Fischer's Giant-Flowering Strain

Ferd. Fischer, famous the world over for his high pedigreed Cyclamen strains, for more than 30 years has furnished many of the exclusive growers of the world. Mr. Fischer this year has received the highest honors in Germany for his new superior strain of Cyclamen plants. This, Mr. Fischer is very proud of and has written us that he would like to advertise the fact of taking all honors in general competition.

To increase the popularity of Cyclamen plants, sow Ferd. Fischer's Cyclamen seed. The colors, and their habit of immense prolific blooms will sell your plants readily. If you are selling young seedlings, transplanted or in pot plants, by using Ferd. Fischer's highly re-selected seed you should have great demand for your plants.

See Front Page of this List for Prices and Further Particulars.

SPECIAL NOTICE

Mr. Fischer has sent us some exceptionally beautiful colored plates in natural colors of his Cyclamen. The pictures are suitable for framing and may be had absolutely free of charge; just write for one or two prints.

NEWER STRAINS OF CINERARIAS **That Have Proved to be Real "Profit-Providers" for the Florist Grower**

ERIKSSON'S "PRIVATE STOCK" MIXED produces somewhat larger flowers than does the Cremer's Strain and a more dwarf plant with comparatively small foliage, contains a wonderful assortment of colors—a great favorite in the Chicago market. Originated and seed supplied through us, by Ernst Eriksson, Riverside, Ill., in his original packages.

Excerpt from The Florists' Review

Feb. 6, 1936 Issue

POINTS ON POTTED PLANTS

Told by Wholesale Grower

"At the short course for florists at the University of Illinois last week, Ernst Eriksson, Riverside, Ill., gave one of the finest talks on "Potted Plants" that have ever been offered before a gathering of Illinois florists. For many years, Mr. Eriksson has been recognized as one of the leading growers of potted plants in the middle west. He is best known among the trade outside of the state through his originations, which include Cineraria Eriksson's Private Stock, Ageratum Riverside and several excellent varieties of Primula malacoides, and Petunias."

CINERARIA

"Cremer's Prized Mixed"

This exceptional strain of Cinerarias is now so favorably known to the trade that we do not believe it needs any comment on our part at this time.

Produces somewhat smaller blooms than does "Eriksson's" with plants of good height and is of such high sale value that growers, in our opinion, will not go amiss in planting liberally of both. Has taken first prize at the Philadelphia Show for the past three years. The originator is constantly improving the strain. The so-called "pumpkin foliage" has been largely eliminated from this exceptional strain.

DIDISCUS

COERULEUS

Blue Lace Flower. Excellent for bouquets. Flowers continually from July until frost. A money maker for florists. Tr. Pkt.....20c Oz.....80c

EXACUM AFFINE "ATROCOERULEUM"

A most useful pot plant. Numerous small dark lavender flowers with golden yellow stamens contrast wonderfully with the light green leaves. To obtain the best results, plant two plants in each pot. Rich soil of leaf mould and turfy loam in equal parts with some sand added is most suitable for its cultivation. Exacum affine is a fragrant and charming indoor plant. As a cheap market plant it is worthy of notice. This new Exacum harmonizes wonderfully well with most of the red and pink Begonias in made up combinations and the plants stand the heat equally well.

WINTER FLOWERING

LIEB'S WINTER MARIGOLD. Sensational Outflower Novelty

The Originator's Improved Strain Now Obtainable from Seed.

New Winter Cut Flower, deep brown with golden yellow crested center. Flowers five weeks after planting, continuing five months. Flowers are of wonderful keeping quality and have a distinctly sweet odor.

The Best Paying Bench Space in Your Greenhouses.

For best results seed should be sown from July up to December. Plant in any house that can be kept free from frost. Fine to follow Mums. Plant 10 by 10 inches and pinch back once. No insect pests. Tr. Pkt.....50c

Fritz Bahr, the noted Horticulturist and retail florist grower, under date of Jan. 26, 1935, stated as follows: viz.,

"I consider Lieb's Winter Flowering Marigold as a quite remarkable addition. I can't say too much for it and right now at its best is real moneymaker for the retail grower."

Will satisfy your critical trade both as to size and variation of coloring. Truly the "last word" in Pansy mixtures, and is our exclusive strain.

If you are looking for "the unusual in Pansies" and your trade will pay the price for product, here it is. We have searched the world over to find a better mixture. However, thus far we have been unable to improve on "A. B. C. De Luxe."

This exceptional mixture is highly recommended for cut-flowers, likewise for spring plant sales. Numerous growers have told us that "De Luxe" Pansy plants in flower virtually sell themselves and command a premium

over stock produced from other so-called "fancy" mixtures. You will, we are quite sure, make no mistake in confining your pansy cultures to A. B. C. "De Luxe" Mixed.

NEW "RUFFLED ORCHID FLOWERED" PANSY

OUR EXCLUSIVE INTRODUCTION

(Growers Description)

"No Pansy is more striking than this novelty. Enormous in size of flower which is exquisitely curled and ruffled. Individual flowers measure easily three and one half inches across in the most fascinating fancy shapes imaginable.

This strain covers a much wider range of soft and fairly bright colors than ordinary Orchid-flowered Pansy. Undoubtedly one of the best fancy shaped Giant Pansies ever raised.

The plants are robust and compact. Having long and stout flower stem. Invaluable for pot culture or for cutting.

When we have shown our guests this Pansy in a vase, most of them could not realize that they were Pansies. They protested in the beginning taking them as some expensive Orchid flowers. The color and the shape of flowers were so much like Orchids."

New Double Flowered Primula Obconica "Portland Beauty"

Provides a Very Worth-While Pot Plant
(New Crop Seed Ready in July)

New Double Flowering Primula Obconica "Portland Beauty"

(See Illustration)

A double flowering Primula Obconica has been long sought for by plant specialists and we are glad to say that such has now been accomplished by an American grower. Ernst Eriksson of Riverside, Ill. and J. Sylvester of Oconto, Wis., both high class pot-plant growers, tell us that this new Primula has a great future. Shades of dark pink, lavender pink, and rose pink mixed. Since same seeds sparsely and the supply is limited, early orders will have first call.

Primula Malacoides Erikssoni NEW CROP SEED NOW READY A Money Maker for the Florist Grower

MANY of our friends have told us that we deserve a lot of credit for having again popularized Primula Malacoides, which years ago was a great favorite of commercial growers. The truth of the matter is that Primula Malacoides Erikssoni has "sold itself" simply because the strain is so much superior to anything offered in the past. We only take credit for having the ability to recognize a superior product which has resulted in a goodly profit to our florist friends. **Malacoides "Erikssoni" is exceptional for combination arrangements as well as for individual pot plant sales.**

After much painstaking effort, Mr. Ernst Eriksson, of Riverside, Ill., has accomplished three new and valuable varieties of Primula Malacoides Erikssoni, namely:

Brilliancy. Opens lavender pink changing to crimson red.

Salmon Beauty. True salmon.

Snow King. The pure white the trade has long been waiting for.

Prices of above: Tr. pkt. of 500 seeds, \$1.00

Complete Cultural Directions compiled by Mr. Eriksson furnished FREE with each order.

Baby Rose. Very deep pink, some almost red.

Baby Doll. A deep pink with frilled flowers.

New Baby. Near lavender pink, the strongest grower with the largest flowers.

Wonder Baby. A most beautiful pink.

Choice Mixture (of above).

Note: We import direct, from the introducers, 1/32 oz. quantities in sealed glass tubes and so supply customers. Providing order calls for 1/32 oz. of individual varieties. Otherwise smaller quantities are furnished in our sealed paper packets.

Better Days. A valuable new color. Deep carmine red. The darkest and one of the most valuable Obconica yet introduced. Very large flowering and the compact, well branched growth is very symmetrical and the mass of flower heads show evenly above the dark green foliage on strong stems.

Tr. Pkt.\$1.25 1/64 oz.\$3.25

The above three varieties are recommended in preference to all other kinds on the market, in their respective colors.

VARIOUS PRIMULAS

PRIMULA, CHINESE GIANT

A Startling New Chinese, "Dazzler." From Hurst & Son, seed merchants and growers of London, England, comes a "really startling novelty in flower seeds." It is a Chinese Primrose (*Primula Sinensis Fimbriata*) which the firm has named Dazzler in recognition of its striking and unusual color; "orange red," as seen in the setting sun, is suggested as the only term that accurately describes it. It is claimed that a well-grown specimen will carry well over 20 flowers open at one time; also that while handsome under all circumstances, the blossoms are especially effective under artificial light. Tr. Pkt.\$1.00

Prize Mixed. Tr. Pkt.50c 1/32 oz.\$2.00

SINENSIS STELLATA

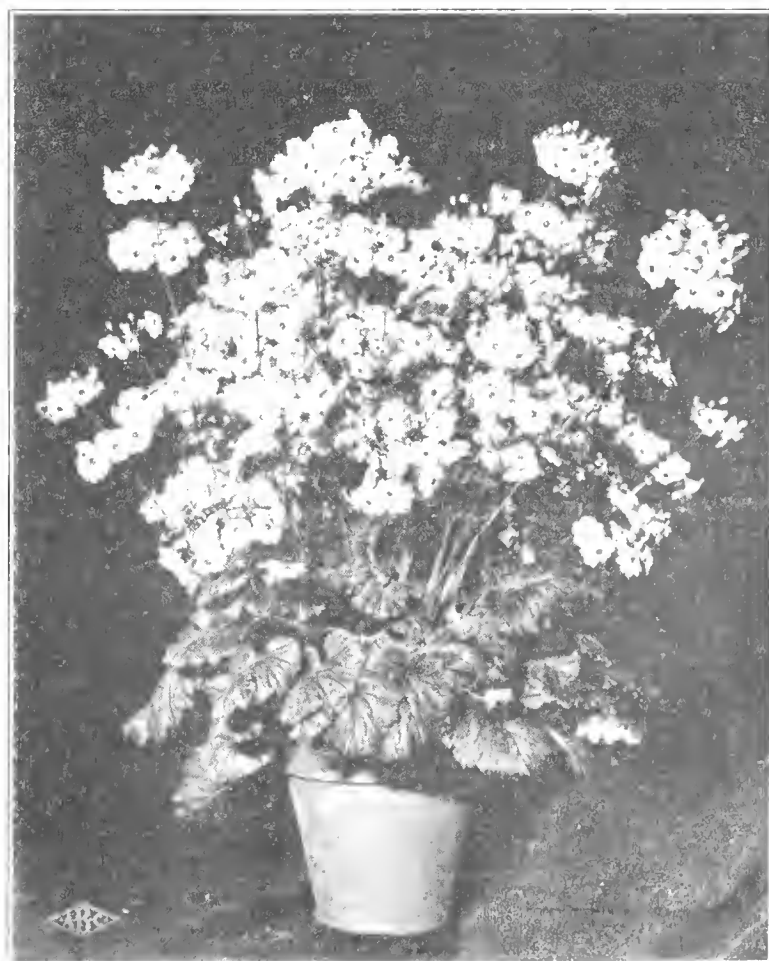

Indispensable for general decorative work. The plants are very floriferous and bloom for a long period. A good keeper and the flowers remain fresh in water for a long period.

Giant Blue Star. **Giant Salmon Pink Star.**

Giant White Star. Each Tr. Pkt. (250 seeds)....50c

KEWENSIS

(Verbena scented yellow primrose.) Of strong growth; long spikes of yellow flowers. For greenhouse culture. Tr. Pkt.50c

Primula Malacoides "Erikssoni"

IMPORTANT TO YOU, MR. GROWER!

When purchasing "Eriksson's Primula Malacoides" insist on obtaining seed in Eriksson's original sealed packets — thereby assuring yourself of the "true to type" strain.

SCHIZANTHUS

"BALL'S DWARF"

For pot plant use, this is the strain to use. The plants are very compact in habit, dwarf growing, about 6 inches high, pyramidal in shape, and very free flowering. The color range includes all the popular pastel shades, pinks, rose, cream, and white, as well as some of the darker colors for balance. Exhibited as a pot plant this new Schizanthus created much favorable comment at the 1935 Chicago Flower Show. Excellent for an early border. Tr. Pkt.50c 1/8 oz.\$1.00

NEW SCHIZANTHUS

SUTTON'S PANSY-FLOWERED (DANBURY PARK STRAIN)

The following is Sutton's (England) description: "This new type of Schizanthus, which we had the pleasure of introducing in 1932, has become very popular. The large smooth-edged Pansy-flowered blooms are remarkably substantial, while the rich self-colors in all shades of pink, crimson, mauve, and purple as well as white, are extremely bright and attractive. The plants included in our Exhibit at the Chelsea Show in May last were very much admired; for this display we were awarded the Sherwood Cup for the Most Meritorious Exhibit in the Show, and the Royal Horticultural Society's Gold Medal."

Strong rooted cuttings from stock plants which are free from
midge, thrips and mealy bug (produced by a specialist) will
get off to a quicker, healthier start. As a result you will be
able to save time and to use less insecticide later in the sea-
son when it is expensive to try to clean up the heavy foliage
on large plants.

If you have not already provided for your "Mum" rooted cut-
tings for the coming season write for our special list which in-

Texas-grown Paper White Narcissus Bulbs in Bloom in Cincinnati Greenhouse.

Excerpt From the Florists' Review TEXAS PAPER WHITE BULBS

Texas-grown Paper White narcissus bulbs furnished by American Bulb Co., Chicago, produced the crop shown in the opposite illustration. One to three flowers on a bulb of 14 to 15 centimeters were grown by William C. Schaefer Floral Co., Cincinnati, O. The bulbs were planted in late December. This bench had been cut four times.

"Why worry about the narcissus embargo when home-produced bulbs will give these wonderful results at prices below foreign importations?"

The demand for Texas Paper White's and Soliel d'or will, we are quite certain, be greater than anticipated supply.
